

223rd Street/Alameda Street Stormwater Tunnel Survey
11/29/18 Summary

Location: The storm tunnel is located beneath the access road connecting eastbound/westbound 223rd Street and Alameda Street, Wilmington, CA. Approximate lat/long: 33.824251, -118.228147. Closest address: 22300 Alameda St. Tunnel is fenced and locked on both sides with after-market padlocks. Access would be from a locked gate along frontage road parallel to northbound Alameda Street. Locked gate maintained by LA Department of Water and Power (see photos). Access along railroad line possible but not recommended due to train activity (railroad line is active).

Estimated time to complete: 1-2 days

Estimated tonnage: 8-10.

Requirements subsequent to cleanup: No Trespassing signage and City locks.

Figure 1: Google map aerial view of location. Red arrows indicate access to east side and west side of tunnel. Green arrow, green line indicates access to tunnel via frontage road paralleling Alameda Street. Yellow box indicates property owned/maintained by DWP.
